Selenite

Our bespoke body treatment combines the therapeutic properties of our essential oil-rich body oils with the healing and energising effects of warmed selenite crystals (the Bramley equivalent of a hot stone). These beautiful, luminous stones are used during the massage treatment and are believed to help restore peace and calm, while easing tension in the muscles. The body is nurtured with warmth from head to toe, muscle tension eased, freeing the mind of stress, leaving you feeling totally relaxed and restored.
